

# THOMAS & GEORGE

LICENSED SURVEYORS

## Our Story

Our Yarra Valley based land surveying practice has continued to grow since its inception in 1983, and the rebranding to Thomas & George Pty Ltd in 2008 established the land surveying business as a company in its own right.

Our practice has been recently recommended by *Rodney Aujard & Associates* to assist their Murrindindi based clients bring their projects to completion, due to Rodney's retirement.

Our survey practice offers land surveyor services to:

- the Lilydale and surrounding areas of metropolitan Melbourne,
- Yarra Valley,
- and the neighbouring rural communities of
  - Alexandra,
  - Yea,
  - Kinglake,
  - Marysville,
  - Murrindindi
  - & Noojee regions.

Our practice, being located on the Peri-Urban, Green Wedge fringe areas of Melbourne, has resulted in a good understanding of the specific planning and survey issues that affect development of Urban Residential, Peri-Urban and Green Wedge/Rural properties, and the particular land surveying requirements associated with such areas.

Locally based surveyors have a knowledge of specific local issues and the Local Planning Scheme, that externally based consultants may not be familiar.

Thomas & George P/L has a strong focus on the future development of the profession by:

- Employment of survey students during their study years at RMIT, mentoring their development into experienced surveyors & survey technicians.
- Facilitating work experience opportunity to high school students to experience surveying,
- Being a Financial pledge partner of the Surveying Task Force, in its ongoing promotion of Surveying as a profession.
